Ms. Laura Yoshii
Acting U.S. EPA Region IX Administrator
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, California 94105

Dear Ms. Yoshii:

Enclosed are revisions to the *State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards* (SIP). Three compact discs and two paper copies, each containing the revisions in their entirety, are enclosed. These revisions consist of amended rules of the following air pollution control and air quality management districts (districts):

Antelope Valley Air Pollution Control District
Kern County Air Pollution Control District
Mojave Desert Air Quality Management District
South Coast Air Quality Management District

Also enclosed is Air Resources Board (ARB) Executive Order G 125-276 adopting the district rules as revisions to the SIP. The districts are authorized to adopt and enforce the rules by California Health and Safety Code section 40001. ARB is authorized to adopt the rules as revisions to the SIP by Health and Safety Code sections 39601, 39602, and 41650 through 41652. Enclosure A lists the specific rules that were amended by the districts and that have been adopted as revisions to the SIP by ARB through Executive Order G 125-276.

To meet the United States Environmental Protection Agency (U.S. EPA) criteria for determining that rule submittals are administratively and technically complete, we have enclosed evaluations of the effects of the rules on emissions, evaluations of the rules' consistency with 40 CFR 51, and other supporting documentation provided to us to date by the affected districts. We have made every reasonable effort to obtain from the districts all documentation necessary to comply with U.S. EPA's SIP Completeness Policy.

We understand that, according to section 110(k)(1)(B) of the federal Clean Air Act,

"The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at www.arb.ca.gov."

U.S. EPA will determine within 60 days of the Administrator's receipt of a SIP revision, but no later than six months after the date by which the State is required to submit the revision, whether the rule packages within the revision are adequately complete to review for approvability. ARB staff may receive additional supporting documentation from the affected districts within the next few months. We will, of course, forward those additional materials to you.

If you have any questions or would like to discuss this SIP revision, please contact Mr. Daniel E. Donohoue at (916) 322-6023, or if I may be of assistance, contact me at (916) 322-2890.

Sincerely,

Michael H. Scheible
